 course distance was the wind predominantly
 favourable [] unfavourable [] or side []
 wind speed _____ (if available)
 If not available was the wind speed above 2m/sec (about 4mph or walking speed) _____

RACE DIRECTORS AFFIDAVIT

To the best of my knowledge and belief -:

- 1) The race was run over the course corresponding to the certification number above and was in all respects accurately measured to AIMS standards. The course was verified on race day to ensure that all cones and barricades contained in the race certificate were in place and the start, finish and any turnaround points were correctly positioned.
- 2) There is no reason to doubt that the above athlete ran the full course as measured.
- 3) The time recorded for the athlete is accurate (i.e. the timer was accurate and there is no reason to doubt that the above time was correctly assigned to the above athlete.)
- 4) There is no reason to believe that the athlete was unfairly aided (e.g. illegal assistance from another competitor, pacing by a non competitor, bicycle, vehicle etc.
- 5) In general the times of athletes competing in the race were consistent with their normal level of performance on a flat, non wind aided course. If the race director has any comments, concerns, or reservations in answering affirmatively to the above please comment on the back of this form.
